

Quizlet FAQs for parents

1 What is Quizlet?

Quizlet provides **free, powerful tools** that help students practice and master whatever they are learning. With several engaging activities to choose from, students can study at their own pace and in ways that work for them.

2 How will my child use Quizlet?

Your child can **review their class material** with different fun activities, from flashcards to practice tests to timed games, at school or at home:

They can **study anytime, anywhere** using Quizlet's free website and mobile apps for iOS and Android.

3 What are Quizlet's safety and privacy practices?

Quizlet is committed to providing a safe and appropriate environment for all our users. Children under age 13 (or older, depending on local laws) have a slightly different experience on our website and mobile apps and their accounts are linked to their parent or legal guardian's email address.
